

DEFENDER CHAIR GUIDE

Mission Critical. Mission Comfortable.

At Winsted we understand that Mission Critical Control Rooms are high-stress environments, and those standing watch work long shifts to support the mission. That's why the right chair is a critical part of the operator's environment. Chairs built and warranted for 24/7 intensive use with heavy-duty steel base construction and all the key ergonomic adjustments.

The Defender is all about supporting our armed service men and women. This chair is uniquely shaped to accommodate gun belts and holsters in a comfortable way, all while providing the best ergonomics available in a chair today.
